Scala Matsuri 2017

Sep 10 2016 00:27

Walter Chang @weihsiu

this sounds enticing indeed!!

as i remembered, they had real time translations to english for all the sessions.

Sep 10 2016 00:43

jirijakes @jirijakes

Oh! I missed this year. Thanks, Pishen

Sep 10 2016 09:26

Vito Jeng @vitojeng

@weihsiu @pishen 我也想去玩玩聽聽呀... 😊

Nov 06 2016 19:09

參 訪

2016/10/13, after the trip to ScalaKansai

Naoki Takezoe @takezoe

Hi, was you in Scala Kansai Summit 2016 in Osaka, Japan last week? I'm co-author of GitBucket and Scala Warrior, and working for BizReach, Inc in Tokyo. Do you remember me?

Naoki Takezoe @takezoe

I found you by chance at the better-files's gitter room, so I sent a message to you involuntarily!

Pishen Tsai @pishen

Hi, it's me. I'm the one wearing Taiwan's Tシャツ 😊

I have been playing around with スタンバイ after I came back to Taiwan. すごいサービスです

Naoki Takezoe @takezoe

My memory was right! I installed KKBOX that day and enjoying it. It's very cool.

When you come to Japan next time (at ScalaMatsuri?), I would like to see you again!

!!

2017/02/04, one month before Scala祭

Pishen Tsai @pishen

竹添さん、東京へ行った時に一緒にご飯を食べてもよろしいでしょうか？もっと日本のエンジニアの話を聞きたいです

Naoki Takezoe @takezoe

是非。滞在期間と滞在場所はもう決まっていますか？

媽！我成功約到日本工程師了！

2017/02/06, two days later...

Naoki Takezoe @takezoe

Fe

I would like to take you to our Shibuya office before a meal if you want.

よろしければ食事の前に渋谷の弊社オフィスをご案内させていただきたいです。以下のいずれかで渋
越しいただけないでしょうか？

!!!

- 22日 evening
- 23日 noon or evening

時間はピシェンさんの都合にあわせられます。日付が決まりましたら詳しい場所などご連絡します！

Pishen Tsai @pishen

Fe

22日 evening がいいです。オフィスの案内は興味あります、良かったらお願ひします！

日本人力仲介的新勢力 – BIZREACH

之前寫了好幾篇文章有關日本的人力仲介，雖然有日系人力仲介 /外資人力仲介、或者是大型跟小型的仲介之分，但是大部分的運作方式都蠻像的，大部分是求職者上人力仲介網站登錄履歷，然後仲介看到有適合的職缺時，會接洽求職者，進行媒合的溝通。今天跟大家介紹一家比較不一樣的人力仲介，它是在 2009年才成立的新勢力 Bizreach。

HRMOS
ハーモス

スタンバイ

The screenshot shows the HRMOS recruitment management system. On the left is a sidebar with icons for search, filter, and other functions. The main area has three tabs: '応募管理' (Recruitment Management), '応募詳細' (Application Details), and '履歴書・職務経歴書の確認・編集' (Check/Edit CV/Job History). The '応募詳細' tab is active, showing an application for '福永愛奈' (Aoi Fukunaga) from '株式会社ビズリーチ' (Biznitch Co., Ltd.). The application details include:

- 応募者名: 福永愛奈 (Aoi Fukunaga)
- 会社名: 株式会社ビズリーチ
- 生年月日: 1988年7月21日
- 性別: 女性
- 電話番号: 0859747140
- メールアドレス: aina_fukunaga@oxgvs.wu
- 住所: 東京都八王子市平岡町3-8-5

The sidebar also lists other applications under '応募者名 /' and '応募ラベル /' categories.

What I've learned

- Dotty
- Scala Native
- Grafter / Kiama
- Eff monad
- Matryoshka (recursive schemes)
- Scala Meta

Dotty

- Scala macros => Scala Meta
- Improved type inference for functions (no currying needed) [Example](#)
- Function with more than 22 parameters
- Union types: A | B [Example](#)
- Enums: true ADT
- Effect system
- Generic programming (aka. Shapeless)

Scala Native

- Complete Scala syntax
- Easy C API interop
- Live code a game of Snake
 - [Source code](#)
- Android / IOS native apps?

Grafter / Kiama

- Case class for configurations
- Case class for components
- Reader[Config, Component]
- Implicit readers to hook everything up
- Kiama for component tree traversal and rewriting
- Simple DI with minimum boilerplate

Eff monad

- A monad to rule all monads
- Monad with multiple effects
- Write program without prior knowledge of effects to use
- No more monad transformers!?
- A simpler replacement for MTL for now
- Example

Matryoshka (recursive schemes)

- For recursive ADTs
- Enables writing recursive logics without boilerplate
- [LambdaMan](#)
- [Example](#)

Scala Meta

- A library that parses Scala source and produces high-fidelity AST
- A Scala compiler plugin that enables writing annotation macros
- More macro styles(inline, etc) are coming
